

THE MOST ACCLAIMED EVENTS FOR THE CHEMICAL INDUSTRY IN THE MIDDLE EAST

13 & 14 February 2019

BAHRAIN INTERNATIONAL EXHIBITION
& CONVENTION CENTRE

The Ethylene Middle East Technology Conference (EMET 2019) will take place on 13th & 14th of February 2019 at the Bahrain International Exhibition & Convention Centre, Kingdom of Bahrain alongside the Middle East Fine & Specialty Chemicals (ME-SPEC) Conference & Exhibition 2019 and Chem-World Exhibition Middle East (ME-CWE) 2019.

EMET will bring together professionals looking to develop their technical knowledge and optimize their position in the fast-evolving Ethylene Industry by increased Operational Efficiency, Sustainability & Excellence.

This edition of EMET will focus on 'Solution Sharing', making this a platform for interaction, technical knowledge and problem-solving.

The conference will provide a unique platform for networking across the streams of operators and owners as well as product and service providers to meet and understand the constantly evolving trends, technologies, products and solutions to the challenges faced by the Ethylene Industry.

I welcome you all to participate in the conference and I look forward to seeing you in Bahrain.

Best Regards,

Metab Al-Shammari

TESTIMONIALS

Ziad Al-Labban
Former CEO
Sadara Chemical
Company

"EMET was successful in meeting its objective of providing a venue for companies and institutions who have interests in the ethylene business to share experiences and network in a constructive and value creating manner. The participant level was higher than the first EMET in 2014 and reflected the support and wish for participating companies for a technical conference which addressed the challenges of the ethylene industry today and into the future."

Said M. Bajodah
Executive President,
SCP & JCP, S-Chem

"This conference is the best technical conference to connect all stakeholders in one place to share their experience, knowledge and best practices in our industry"

THE MIDDLE EAST'S FLAGSHIP SPECIALTY CHEMICALS CONFERENCE & EXHIBITION

The Middle East's flagship Specialty Chemicals event provides a regional forum for Petrochemical Suppliers, Converters, Original Equipment Manufacturers (OEMs) and potential investors to showcase, network, and share knowledge & experiences across the whole value chain.

Now in its 2nd Edition, ME-SPEC will be held at the Bahrain International Exhibition & Convention Centre on the 13th & 14th of February 2019 alongside the Ethylene Middle East Technology Conference & Exhibition and Chem World Exhibition Middle East. Together, these three shows make for an unmissable, world-class networking event for delegates, visitors and investors.

REASONS TO PARTICIPATE

- Provides the Middle East a platform to support regional transformation to further the downstream industry
- Designed to provide knowledge, opportunities and connections to all stakeholders to accelerate the growth of the new industry
- It is for the Product suppliers, OEM's, Converters and Investors
- Aimed at opening new markets within the region to expand the current industrial portfolio
- Address challenges associated with such industries and provided best practices from the other regions
- It is a fast-moving, exponentially growing market
- It is focused on the following sectors: oil & gas, building construction, packaging, automotive and watermanagement

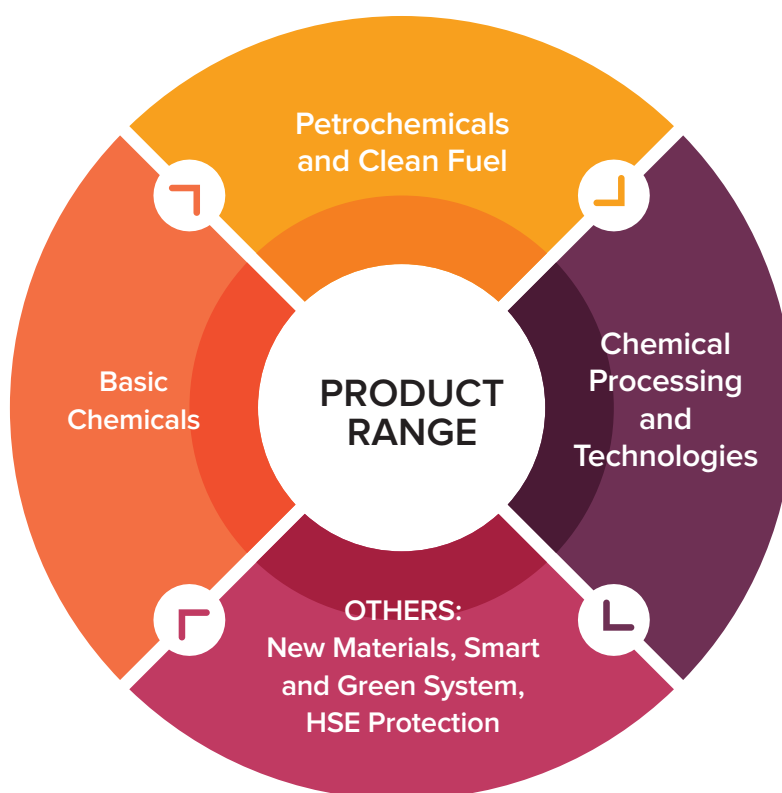

Chem-World Exhibition - Middle East

THE CHEM-WORLD EXHIBITION MIDDLE EAST

By utilizing the international network of China National Chemical Information Centre (CNCIC), Chem-World Exhibition (CWE) has become the most influential event of Chemicals and Chemical Processing Industry, having visibility and influence in Middle East.

Chem-World Exhibition - Middle East (ME-CWE) will be held at the Bahrain International Exhibition & Convention Centre on the 13th & 14th February 2019. ME-CWE aims to support and encourage enterprises to understand chemical trends & requirements to expand business opportunities between China and the Middle East. This platform will provide face to face networking opportunities for chemical CEOs, Managers, Engineers, Technocrats and Scientists, Policy makers, Planners, and the world's largest chemical companies.
